CURRENT STATUS OF CROSS-BORDER COOPERATION ON "ETC - OBJECTIVE3"

Dirk Bölit

SAB Sächsische Aufbaubank - Förderbank, Gemeinsames Technisches Sekretariat

< as **EXAMPLE** Template > **ABSTRACT** < als **BEISPIEL** Vorlage >

Keywords: *Cross-border cooperation, EC Regional policy, Joint Technical Secretariat, Lead partner principle, Operational program, Saxony-Czech Republic, Saxony-Poland*

Contents:

One goal of the "ETC-Objective 3" operational programs Saxony-Czech Republic and Saxony-Poland among others is to commonly expand and improve the access to information, communication and data networks as the basis for planning and monitoring tasks.

Thus the cross-border cooperation particularly in the fields of environment, land use planning and regional planning, arts and culture (monument conservation) and public safety can be supported.

The change from EC Common initiative "INTERREG III A" to "Objective 3" - Cross-border cooperation (art. 7 GENERAL REGULATION (EC) No 1083/2006) is accompanied by higher demands on the quality of cross-border cooperation, in particular by means of the Lead partner principle.

The Joint Technical Secretariat in the SAB Development Bank of Saxony provides services, particularly concerning consultancy and preparation of decision making.
