APPLICATION FORM

European Territorial Cooperation Objective

CENTRAL EUROPE Programme

Application Round 4

Don't remove the Excel protection. You risk that the form will be damaged and thus the application will become INELIGIBLE

Title of the project:

Tracking and Tracing solutions for improvement of intermodal transport of dangerous goods in CEE

Acronym:

ChemLog-T&T

Lead Applicant (official name of the institution in English):

Ministry of Science and Economy Saxony-Anhalt

Lead Applicant country:

Germany

Region:

Sachsen-Anhalt

Priority:

Priority 2

Area of Intervention:

2.4 Promoting Information and Communication Technologies and Alternative Solutions for Enhancing Access

Duration:

Start date		End date		Duration (months)
7	2012	12	2014	30

Form has to be filled in and returned by post as printed version and on CD-ROM/other device:

CENTRAL EUROPE Programme

Joint Technical Secretariat

Museumstraße 3/A/III

↔ "Checkbox" (use drop down menu to select Value or "x" for "yes" and "o" for "no")

grey field Not to be completed by applicant, data are automatically transferred/ calculated

Will be filled by JTS

Checklist for submission of the Application Form

Yes N/A

- The filled in Application Form and related Annexes will be sent in one single envelope to the Joint Technical Secretariat by normal post or courier no later than 14 October 2011 (date as per post mark). In case of delivery by hand, the application must arrive before 5 p.m.
- The original hard copy versions of the filled in Application Form and all related Annexes, together with a CD-ROM / other electronic support (including e-version of the Application Form, the Map and, in case of private Lead Applicant, also the SFS) are submitted in a single envelope.
- An e-mail will be sent by the Lead Applicant to the JTS (info@central2013.eu) announcing the submission (including project title and acronym) not later than 14 October 2011.
- Only the Application Package of the 4th call for proposals has been used and all submitted documents are completed in English.
- The paper version of the filled in Application Form is not bound in order to ease photocopying.
- Hard copy and electronic versions of the Application Form (AF), the Map and if applicable, the SFS, are equal in content. Both AF versions indicate the same Checksum number (For printing the hardcopy the button "Finalize and print" on AF Coversheet has been used).
- Both versions of the Application Form show no ERROR and INCOMPLETE messages.
- The hard copy version of the Application Form is in original, dated, stamped and signed by the legal representative/duly authorised person of the Lead Applicant in original (i.e. only original, handwritten signature will be accepted).
- The hard copies of the Annexes (1. Co-financing Statements, Declarations on Administrative and Financial Capacity and on Legal status; 2. Declaration on status in relation to the State Aid discipline; 3. if applicable, Simplified Financial Statement-SFS) are in original, dated, stamped, printed on Partners' letter headed paper, and signed (original handwritten signature) by the legal representative/duly authorised person. In case of fax or scanned copies the originals have to be submitted by the Lead Applicant not later than 3 working days.
- For all submitted declarations only the 4th Call Application templates have been used and the template text has not been amended.
- The figures in the Co-financing Statements are identical with the partner's co-financing figures in Section 4 of the submitted Application Form.
- State Aid Declarations are submitted for the Lead Applicant and all Project Partners (except International Organisations and Third Country partners) receiving ERDF funds.
- In case the Lead Applicant within Priority 1 is a private institution, the SFS is submitted and the following requirements have been respected: copy of the most recent profit and loss accounts included; copy of the most recent balance sheet included; copy of an independent audit report or auditor's certification included; most recent balance sheet refers to the same legal entity indicated in the Application Form and in the Annexes.
- A flow chart indicating the co-ordination and management structure has been attached.
- A map showing the location of all partners has been attached.

Section 1: Basic Information

Project summary

Describe the project background, issues/challenges, objectives (general and specific), need for transnational cooperation, relevance of the partnership, main activities, expected outputs and results.

Chemlog-T&T has the general objectives: 1. Promotion of intelligent use of ICT for the improvement of intermodal transport of dangerous goods in CEE to strengthen regional development and competitiveness of chemical industry, 2. Facilitate modal shift from road to rail and reduce greenhouse emissions by improving competitiveness of intermodal transport, 3. Improvement of safety, security, reliability and efficiency of intermodal transport of dangerous goods. The specific objectives are: 1. Applying ICT for development of efficient traffic management and information systems of transnational transport of dangerous goods by tracking and tracing, 2. Improvement of framework conditions in view of organisational, institutional and strategic solutions for T&T technologies for intermodal transport of dangerous goods under involvement of companies, logistic service providers and public authorities, 3. Develop recommendations for open and joint standards for tracking and tracing as result of

practical testing and facilitate the networking and implementation of T&T technologies in CEE. The vulnerability of dangerous goods transports clearly stresses the needs for chemical companies and public authorities to ensure safe transport and functioning crisis management procedures. Today there are no commonly used T&T solutions in Europe, which fully answer the needs of the chemical industry. Several single initiatives exist, which are isolated and not compatible. Furthermore there are also interface problems at the borders for transnational transports and problems of communication and cooperation with public authorities. Therefore it is necessary to develop an efficient information platform for tracking and tracing, which provides real time information about the actual location of transported goods and its status for the entire transport chain. The partnership consists of different entities from DE, AT, PL, CZ, SK, SV, HU, IT, which fulfil a specific function in the project.

1. Public Regional authorities, such as ministries for economic affairs or transport or regional development agencies
2. R&D organisations and 3. Interest Groups - Association of Chemical Industry. This composition of partnership allows an efficient division of work and ensures a good implementation of project activities. Transnational cooperation is vital for the achievement of the expected results due to the complexity and transnational dimension of the chemical logistic and tracking and tracing in Central Europe, as the biggest barriers in these areas result from different framework conditions, policies and regulations in the partner countries. Besides Management in WP1, Dissemination activities will be implemented in WP2. The WP3 will focus in the first year on the analysis of the current situation of tracking and tracing and identification of needs of chemical companies and public authorities. On this basis the partners will jointly develop transnational tools for

tracking and tracing, adapted to the needs of intermodal transport of dangerous goods. WP4 will work on the implementation of pilot projects for the practical testing of the tracking and tracing tool on selected transport routes with high importance for chemical logistics. The PP1 will focus on the TEN-T Corridor 2, the PP2 on TEN-T Corridor 3, the PP3 on the TEN-T Corridor 10 Danube and the PP4 on the Corridor 4 from DE to SK and is then continuing to the Ukraine Boarder. The pilot projects will implemented in close cooperation with specialised logistic service provider. The final WP 5 will focus on the strategy development and the mainstreaming of project result. A Regulatory Policy Advisory Group will be established to integrate results in the future shaping of regulatory framework. The major activities such as the development of recommendations for the promotion of tracking and tracing in CEE and the Joint Action Plan will be implemented in the last semester of the operation.

ERDF % for EU partners outside CE (20% rule):

Has the project idea already been presented in other Territorial Cooperation Programmes or other relevant EU Programmes/Funding Schemes?

Co-financing Statement and Declaration on Administrative and Financial Capacity and on Legal status by the Legal Representative of the Lead Applicant Organisation

I, the undersigned, representing Ministry of Science and Economy Saxony-Anhalt

request from the Managing Authority (MA) an ERDF contribution of 1.530.317,50 EUR
with a view to implementing the action that is the subject of this project proposal.

I declare that:

- I am authorised by my organisation to sign the Application Form on its behalf;
- All information contained in this application is correct to the best of my knowledge;
- The organisation I represent has the adequate legal capacity to participate in the call for proposals;
- The organisation I represent is a Public authority.

The organisation I represent has financial capacity to complete the proposed actions and in particular:

- The proposed financial commitment is adequate to the organisation's size and capacity;
- It has the capacity of providing advanced payments also for considerable amounts (e.g.: investments);
- Eventual delays in ERDF reimbursement will not undermine the organisation's capacity of implementing the foreseen actions within the project;
- Its financial involvement in the project does not undermine the organisation's daily activities.

The organisation I represent has the administrative capacity to complete the proposed actions and in particular:

- It has enough internal human resources to ensure sound project management and coordination and the timely performance of the proposed actions. In the absence of these, additional necessary resources are properly included in the project budget;
- It has appropriate infrastructure and tools to ensure the adequate performance of the proposed actions;
- Its administrative involvement in the project does not undermine the organisation's daily activities.

All partners of this proposal comply with the rules on beneficiaries as stated in Reg. (EC) No 1080/2006, 1083/2006 and No 1828/2006 and their amendments.

I acknowledge that:

- The organisation I represent will not receive ERDF funds if it finds itself, at the time of the grant award procedure, in contradiction with any of the statements certified above, or is guilty of misrepresentation in supplying the information required by the MA a condition of participation in the grant award procedure or has failed to supply this information;
- In the event of this application being approved, the MA has the right to publish the name and address of this organisation, the subject of the grant and the amount awarded and the rate of funding.

Confirm that:

In the event of project approval the organisation I represent commits itself to the operation, and will provide: 88.287,50 EUR
as national co-financing to the CENTRAL EUROPE project's budget.

The specific actions listed in this project proposal have not and will not receive any other aid from the Structural Funds or other Community financial instruments. In the event that any of such funding is received after the submission of this proposal or during the implementation of the project, my organisation will immediately inform the MA.

By signing this I confirm that the proposed project is in line with the relevant EU and national legislation and policies of all countries involved.
